

Acknowledgements

We would like to thank the following publishers for the authorization to include their articles in this volume:

- The American Pharmaceutical Association for giving the permissions to reproduce the articles published in the *Journal of Pharmaceutical Sciences*.
- The American Society for Pharmacology and Experimental Therapeutics for the articles published in the *Journal of Pharmacology and Experimental Therapeutics*.
- Lippincott Williams & Wilkins for the article published in *Medical Sciences Research*.
- Plenum Publishing Corporation for the article published in *Pharmaceutical Research*.
- The Society of Experimental Biology and Medicine for the article published in *Proceedings of the Society for Experimental Biology and Medicine*.
- Direct permission from Professor Gerhard Levy to reproduce the article published in *Pediatric Pharmacology* was requested and granted because the publishers, first Alan L. Liss, Inc. and then John Wiley & Sons, ceased the publication of this journal.

The Esteve Foundation also wants to thank Ms. Carme Rodríguez for her technical assistance in preparing the book.
